

Press release

Synchron Solutions Certified by SAP as Powered by SAP NetWeaver®

Synchron International AB, a leading provider of enterprise software for global supply chain management, today announced that its Synchron Solutions v8.0 has been certified by SAP AG as powered by the SAP NetWeaver® technology platform.

Integration with SAP NetWeaver provides existing and new Synchron customers the ability to further leverage their investments in SAP® solutions and complement it with advanced software that will allow them to support global supply chain management processes.

Synchron provides software to major industrial manufacturers and distributors for global order management, service parts management, supply chain planning and price management.

"Many of our large industrial customers have invested in the SAP NetWeaver platform," said Anders Grudén, CEO at Synchron. "The certified integration of Synchron Solutions 8.0 will provide them with the ability to further leverage SAP NetWeaver and to achieve a reduced total cost of ownership through platform rationalization."

The SAP Integration and Certification Center (SAP ICC) has certified that Synchron Solutions 8.0 can be successfully deployed on the Java EE 5-based SAP NetWeaver Compostion Environment (SAP NetWeaver CE) Release 7.1 offering. The certification was achieved by demonstrating that Synchron Solutions 8.0 meets all of the technical and business criteria established by SAP for powered by SAP NetWeaver certification. SAP NetWeaver unifies integration technologies into a single platform reducing the separate application server maintenance.

In addition to being certified as powered by SAP NetWeaver, Synchron Solutions 8.0 achieved "SAP Solution Manager Ready" status. Solutions that qualify as SAP Solution Manager ready are made visible to the customer's SAP system landscape directory, displayed within the SAP Solution Manager application management solution at the customer site.

Through this certification, Synchron offers new and existing customers with the ability to mix and match applications to create a flexible supply chain solution that can support their business processes without compromise. This provides leading industrial manufacturers with tools to enable them to meet the dynamic challenges of managing complex global supply chains.

Synchron maximizes global supply chain performance, easily. Our groundbreaking IT solution, leveraging existing IT infrastructure, is rapidly implemented. Within six to twelve months, it yields performance improvements of 20-30% in four major areas: customer service levels, supply chain process efficiencies, global price management and stock level reductions.

We deliver superior results to our customers through combining software expertise with extensive experience from selected industry sectors within manufacturing and distribution.

Synchron delivers five key benefits: The ability to change a global business overnight, for example through connecting and disconnecting business relationships. The opportunity to increase service levels while lowering inventory, thanks to industry-leading algorithms. Increased lifespan of current IT investments through leveraging existing business process logic and IT systems. Quick results as implementation takes just three to six months. Access to industry thought leadership - we designed a revolutionary IT solution and continue ahead.

To stay ahead, many world-leading global companies have chosen Synchron: Alfa Laval, Atlas Copco, Electrolux, Komatsu, Metso, Renault Trucks, Sandvik, Scania, Tetra Pak, Toyota, Trelleborg, Volvo and VW.

Synchron has offices around the world.
